### **Technical Bulletin WSC-1-97**

#### **WHITE SKIMCOAT™ with ACRYLIC EMBOSSING ADDITIVE™**

Dear Dependable Distributor,

We are pleased to announce that Dependable ACRYLIC EMBOSSING ADDITIVE™ may now be used with Dependable WHITE SKIMCOAT™ Underlayment as an additive. We recommend the use of ACRYLIC EMBOSSING ADDITIVE™ with WHITE SKIMCOAT™ over non-cushioned vinyl or other special situations where a more difficult adhesion is presented.

Used with Dependable SKIMCRETE® XL, ACRYLIC EMBOSSING ADDITIVE™ may be used over all fully adhered, single layer vinyl surfaces, including cushioned vinyl's and urethane wear layers.

Over asphaltic cutback adhesive residue or other similar materials, ACRYLIC EMBOSSING ADDITIVE™ can be used as an effective primer, especially where it is also used as an additive with the powder.

If you have any questions or comments with respect to this technical bulletin, please contact technical service at Dependable, LLC at 1-800-227-3434.
