

Dependable, LLC

The Perfect Solution to Level Wood without Lath

Skimflow[®] LCB

Fiber Reinforced Self-Leveling Underlayment

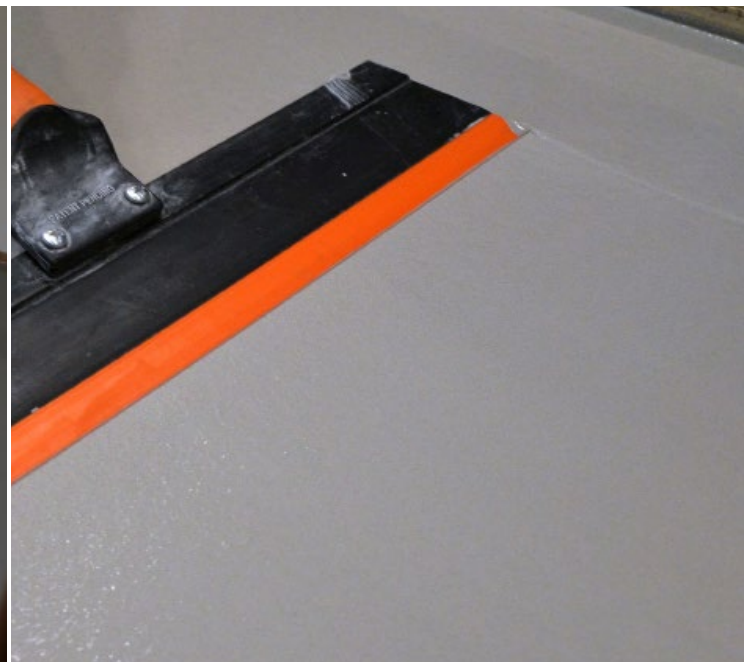

Skimflow LCB (Liquid Cement Board) is a fiber reinforced product designed specifically for use over wood.

LCB was engineered with tremendous flexural strength to handle any subfloor movements to ensure a durable bond, and a lasting subfloor. With LCB, no additional mesh is required. Mix, place, dry – and your wood subfloor is fortified and strengthened for any finished floor material.

FEATURES AND BENEFITS

- Outstanding flexural strength
- Suitable for plywood and gypsum subfloors
- Durable high strength specialty cement
- Outstanding heal
- Non-alkaline – adhesive friendly
- Withstands construction/renovation traffic
