## How FloorPrep.com can Help You Achieve LEED® Credits

**LEED®, or Leadership in Energy & Environmental Design**, is a green building certification program that provides a national rating system for developing sustainable building designs and construction.

*LEED v4 - There are changes on how DEPENDABLE products contribute toward points for LEED project certification.*

LEED v4

### LEED v4 BD+C (Building Design + Construction)

**MR Credit 3:** 1-2 points  
(Material & Resources)  
**Building Product Disclosure and Optimization - Sourcing of Raw Materials**

Locally sourced materials and recycled content are now combined in 2 options:

1. Raw Material Source and Extraction Reporting (1 point)
2. Leadership Extraction Practices (1 point)

**EQ Credit 2:** 1-3 points  
(Indoor Environmental Quality)  
**Low-Emitting Materials**

This credit reviews volatile organic compound (VOC) emissions into indoor air and the VOC content of materials, as well as the testing methods by which indoor VOC emissions are determined. 2 Options:

1. Product Category Calculations
2. Budget Calculation Method
