KeedeSet™ Unsanded Wall Grout

KeedeSet™ Unsanded Wall Grout is a chemically intensified Portland cement-based grout that possesses exceptional working qualities and permanent joint life. It is non-shrinking, non-toxic, and odorless inhibiting the growth of fungus. It contains an inhibitor to neutralize complex heavy metal salt stains common with some soft bisque ceramic tiles

APPROVED TILE TYPES

Brick and thin brick • Stone • Precast terrazzo • Porcelain and glass Vitreous, semi-vitreous, and non-vitreous ceramic tile

KeedeSet™ Sanded Floor Grout

KeedeSet™ Sanded Floor Grout is a blend of Portland cement, specially graded silica sand, and colorfast pigments that form a dense matrix free of any voids. Dependable's Sanded Floor Grout provides hard, dense joints that resist cracking, shrinking, and wear. This product is non-toxic and non-dusting with resistance to bacteria, fungus, oils, and alkalis.

APPROVED TILE TYPES

Brick and thin brick • Stone • Precast terrazzo • Porcelain and glass Vitreous, semi-vitreous, and non-vitreous ceramic tile

Colors shown are as accurate as can be produced using the finest of methods of printing and reproduction. The final color of the installed joint is subject to a variation from the printed color samples in this brochure.
