

Gypsum Patch and Skimcoat with Latex Additive

White **SkimCoat**

White SkimCoat is the patch professionals choice for economical, fast setting, high strength gypsum based patch. When White SkimCoat is used with FloorPrep's White Latex Liquid admixture, it provides increased adhesion and flexural strengths for use over problematic substrates.

White Latex Liquid is a non re-emulsifiable latex additive used in lieu of water as an admixture with White SkimCoat or Skimcrete XL to increase patch performance and durability. The addition of White Latex Liquid will increase the adhesion and flexibility of White Skim Coat and Skimcrete XL.
